

# 韩山师范学院实验报告

姓名：陈淑美      专业： 软件工程      班级： 20181181      学号： 2018118105

科目： Android 应用开发      实验日期： 2020.9

实验题目： 实验一 工具链安装和 hello world 程序

【实验结果】

The screenshot displays the Android Studio environment. On the left, the 'Project' and 'Resource Manager' tabs are visible, showing the project structure for 'myhelloworld'. The 'app' module is expanded, revealing folders for 'manifests', 'java', and 'resources'. The 'java' folder contains the package 'com.example.myhelloworld' with files 'MainActivity', 'ExampleInstrumentedTest', and 'ExampleUnitTest'. The 'Build' tab at the bottom shows a successful build for 'myhelloworld' at 2020/09/01 14:00. On the right, a virtual device window titled 'Google Pixel 2 (1080x1920)' is shown, displaying the 'Myhelloworld' app with a purple header and the text 'Hello World!' on a white background. The device's status bar shows the time as 3:53 and various icons for battery, signal, and GPS. The bottom of the device window has a navigation bar with back, home, and recent apps buttons.
